An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

✓ On page 80, line 1 of the specification, "prosthetic" was deleted and replaced with ---prosthesis---.

The following is an examiner's statement of reasons for allowance:

Upon further review, the Examiner decided to withdraw the Section 102(e) rejections utilizing the two Williamson IV et al patents because the effective filing date of the utilized subject matter from those patents was on the date of the effective filing date for the present claims. Otherwise, the claims could not be anticipated thereby.

Additionally, the Section 103(a) rejections were withdrawn because of the statement made on page 2, line 14 et seq. of the response filed October 11, 2001. In particular, the Examiner cannot assert that the ownership changed after May 6, 1999 in light of Applicant's statement to the contrary. It appears, however, that the assignee information needs to be updated with the present application.

With regard to claim 26, line 3, the term "nonformed" has been interpreted to be similar to the meaning of "not plastically deformed" because this appears to be the intended meaning thereof in view of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
